We are your premier Latin American airline for both domestic and international destinations.

What began as a dream in 1934 has become a reality. Aeromexico is a leader in Latin America thanks to a global vision focused on service and efficiency. Aeromexico is not only known for having the most complete, modern and safe fleet but also for the destinations that we fly to. We pride ourselves on offering you all the warmth and hospitality that Mexico has to offer from the minute you board your flight. Wherever your journey takes you, our travel experts are always available to go the extra mile for you.

Reliability is another one of our core values. Our completion factor (the percentage of scheduled flights completed) was 99.56% - number one in regional flight completion.
